# FORTUNE ENERGY and ENGINEERING COMPANY

## Company Objective

---

### **Our Vision:**

To be a Leading and Innovating EPCC company establishing a new benchmark in the Nigerian Market for: Safety, Quality, Management, Performance and Execution.

### **Value:**

We are committed to Health & Safety, Integrity, Quality, Competitiveness, Passion for performance and challenges, Teamwork, Responsibility.

### **Our Mission:**

Pursuing satisfaction of our clients in the industry, approaching each challenge with safe, reliable and innovative solutions.

### **Sustainability:**

We entrust our teams to provide sustainable development for our company and for the communities where we are executing the projects.

Due to the nature and complexity of our business we believe that only creating a strong and sustainable social and economic growth, we can build the foundation of our business.

## Who We Are

FORTUNE ENERGY and Engineering Company Limited is an Engineering and Design, Project Management, Procurement, Construction and Commissioning (EPCC) Services Company.

Our multidisciplinary expertise stretches across project and process management, piping, civil, structural, mechanical, electrical, and instrumentation. We have extensive in-house capability for the Laser Scanning, Engineering, prefabrication and assembly of mechanical equipment both onshore and offshore.

## THE GROUP EVOLUTION

## HSE MANAGEMENT

- **FEECL** benefits of a strong HSE culture and experience where the Health and Safety are the fundamental principle, to create value for our Client and our Stakeholders.

- **FEECL** believe and adopt the “Leading by Example” defining a Top-Down approach where the company leader shall assure the cascading and implementation of the safety culture till the last level, reaching the target that every single employee is a safety leader, with a full “stop work authority”.

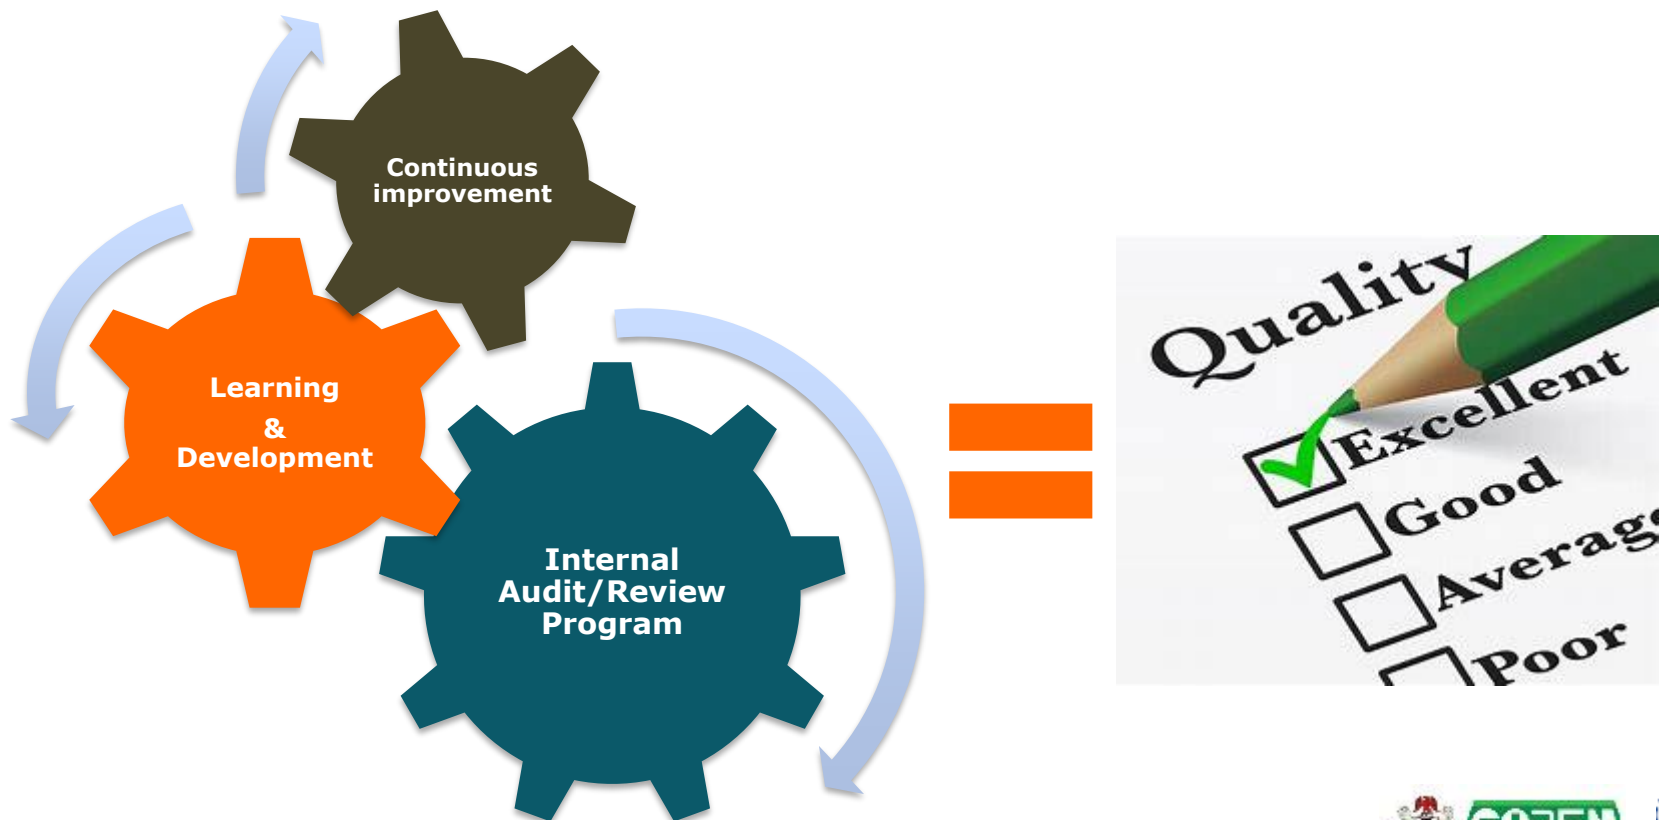

# FORTUNE ENERGY and ENGINEERING COMPANY

## TARGETTING TO SAFETY

**WE ALL HAVE A FAMILY THAT AWAIT US**

- **FEECL** has made Quality its top priority, which gives it a competitive advantage in a highly competitive market.
- **FEECL** has implemented measures to ensure that the key messages are conveyed to all personnel and that the fundamental procedures are understood and implemented.

- Engineering
- Procurement
- Construction
- Installation
- Project Management
- Operations & Maintenance
- Personnel recruitment and management
- E/I works
- Civil works

### SERVICE OFFERED

FEECL has a flexible Business model, and we can offer a wide and integrated range of services in the industries:

# **FORTUNE ENERGY and ENGINEERING COMPANY**

## **Detailed Services**

Engineering FEED and Detail Design  
Laser Scanning Specialist & 3D model  
Procurement services  
Piping prefabrication and erection  
Metallic structure prefabrication and erection  
Piling  
Civil structures  
Road construction  
E/I Installations  
F&G installation  
Fabrication and Installation of offshore structures  
Shore approach  
Commissioning & startup assistance  
Project management  
Maintenance and Operations  
Painting and Blasting  
Welding books  
Scaffolding

# FORTUNE ENERGY and ENGINEERING COMPANY

## Project Support Services

FEECL through his subsidiary **MANPOWER MATRIX** and his Italian Partner **Progeco NeXT** is able to support its Client in any phase of the Project with the following services (on reimbursable basis):

**Project Management**  
**Engineering**  
**Field Engineering**  
**Maintenance Engineering**  
**Procurement**  
**QA / QC**  
**Construction Supervision**  
**Commissioning Supervision**  
**Operation & Maintenance Supervision**

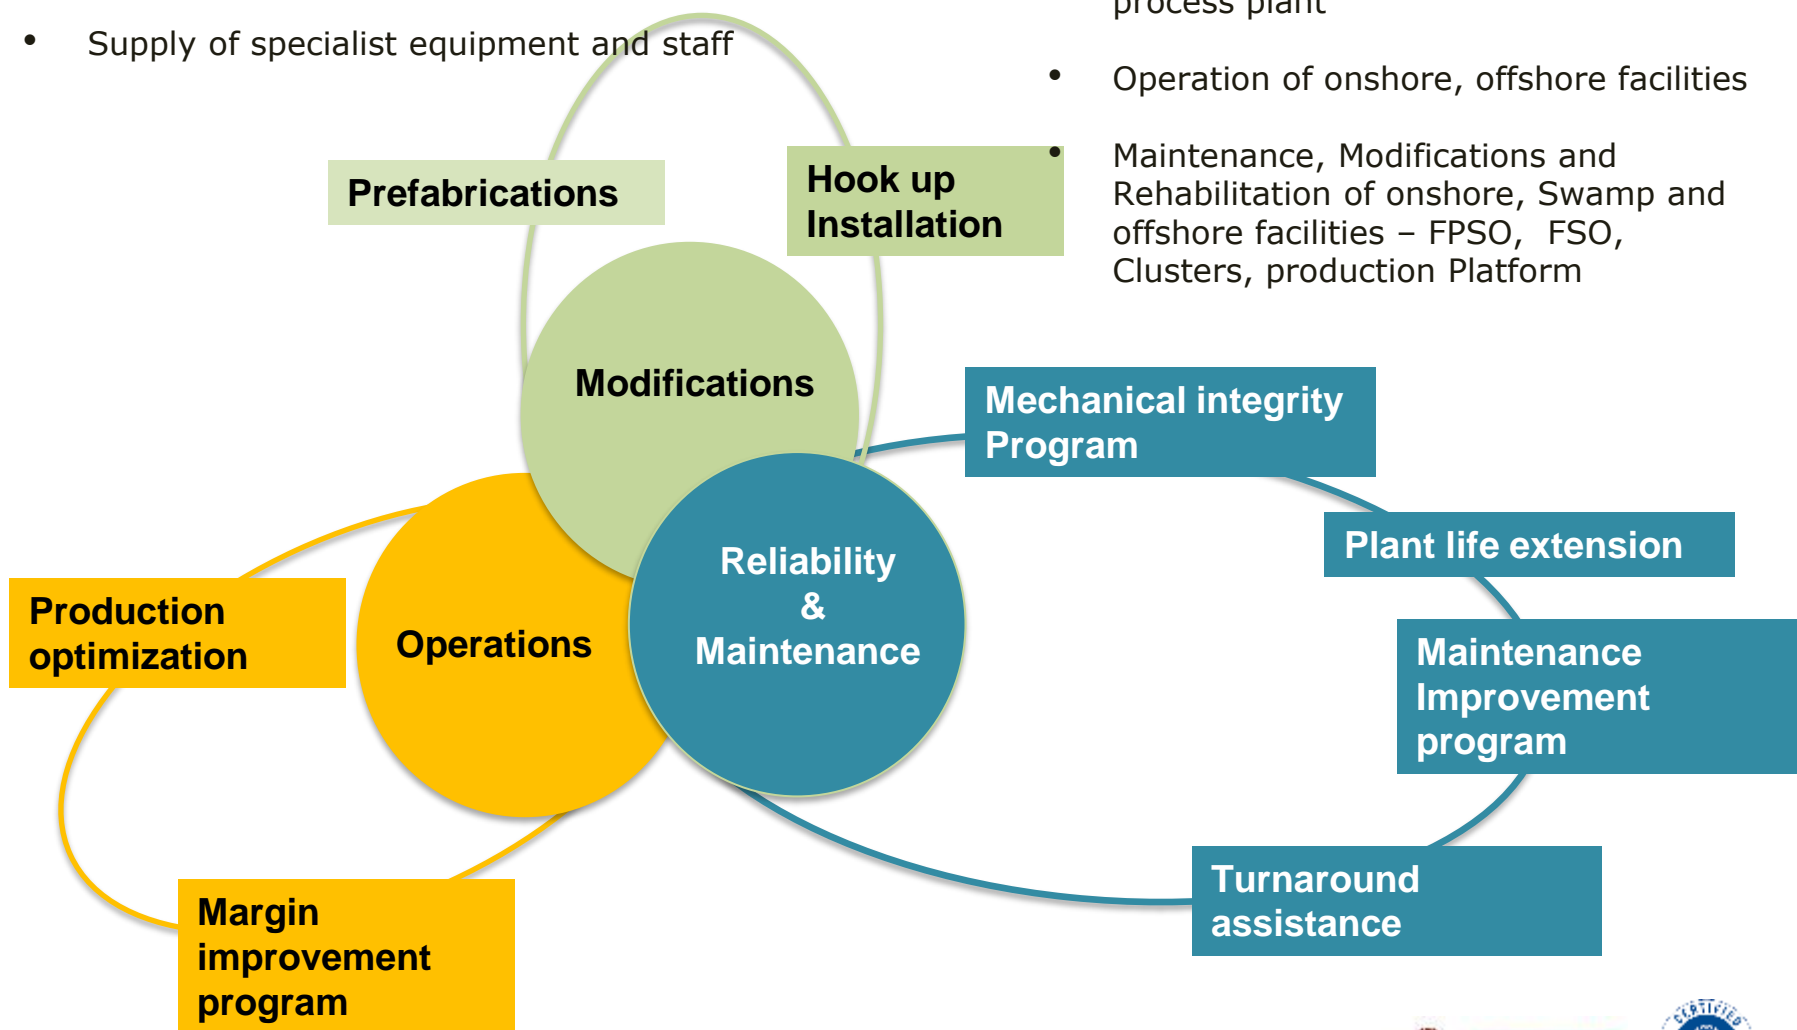

Please see the dedicated presentation  
of ManPower Matrix

# FORTUNE ENERGY and ENGINEERING COMPANY

## MAINTENANCE & OPERATIONS

- We offer a wide range of activities and Services that cover the complete lifecycle of a plants. Operation, maintenance and modification onshore and offshore
- Supply of specialist equipment and staff
- Advanced optimization solutions
- Training of personnel on dedicated process plant
- Operation of onshore, offshore facilities
- Maintenance, Modifications and Rehabilitation of onshore, Swamp and offshore facilities – FPSO, FSO, Clusters, production Platform

# FORTUNE ENERGY and ENGINEERING COMPANY

## GROUP COMPANY, SUBSIDIARY & PARTNER

# FORTUNE ENERGY and ENGINEERING COMPANY

## CERTIFICATION/ACCREDITATION

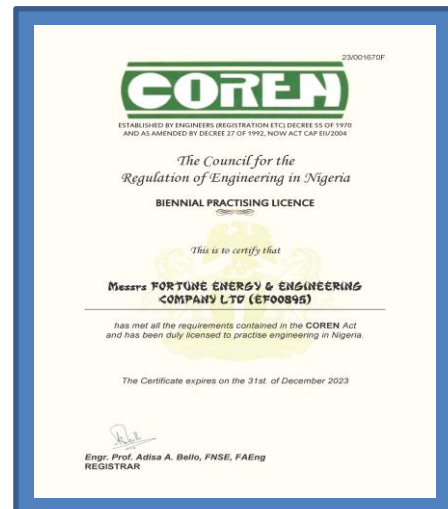

**FEECL** is registered with all necessary permits and authorization to operate in the O&G sector, included COREN

DEPARTMENT OF
